Brighton East Dental Clinic is a preferred provider for HBA, MBF, Mutual Community, BUPA and Medibank

# Dr Rochelle Rodrigues

BDS, ADC Cert.(Melb)

For over 18 years, Dr Rochelle has been providing quality dental care to families and communities. She believes prevention is better than cure and goes the extra mile to provide effective dental treatment as per your needs.

Dentistry is a need and not a luxury and hence our prices are affordable and probably below average rates, which is why we are preferred dentists for BUPA and Medibank to charge their discounted rates. Most importantly, we only recommend and perform work that the patient needs to fix a problem or to prevent future problems that may cost them more later.

Bupa  medibank

Our clinic has new European dental equipment, our dentists and nurses provide children and family friendly dental services. We care for our patients and put their needs first.
